tract any large outside following to the long side. The comparatively small volume of orders on hand at the opening led to a temporary renewal of selling operations, but the demand which was uncovered whenever prices

Of perhaps more commanding influence for the moment, however, were the indications that the selling movement had exhausted itself for the time and that the market's position was still strong tech-

In the steel group the feature was the strong demand for U. S. Steel, which sold at more than 7 points above the low prices of this week. The con-

The coppers, held back by uncertainty as to the price to be established for the metal, showed early heaviness, but later made a moderate advance. Equipments were bid up briskly. The railroads continued to remain in the background and with a few exceptions, moved within narrow limits.
